**Adnan
Demirci**

Özen has been producing handles, hinges and accessories since 1989 35 years of time; Özen increased the capacity, market share and modernized the its technology. Özen has began production 34 years ago at a small workshop with srtong idealism, now continues production at modern factory which has been actively going on 8000m2

Quality always starts in the mind, wanting to choise the highest materials available and to combine with the best handcrafting. At every step of production; from design to selection raw materials; from production to packing line

Quality constant standard in every detail. Personal expectations and reflaction of a life style is always primary in our designs. Most important reason for our products being used for a long years that they have long lives is this.

1989 started production with brass material.

1992 initiated new production line and hinges added.

1994 new factory has started operate in an area of 1500 m2.

1996 our first ever export to Russia

1998 granted with TSE EN quality certificate.

2000 added zinc material production.

2004 added window accessories on production line.

2005 moved to new facory located an closed area of 8000 m2.

2006 added aluminium material production.

2008 recieved ISO, CE certificates.

2014 reached the capacity of 4000 set door handle / day.

2016 added cabinet handles production.

2020 reached 8000 set door handle / day.

2021 mortise lock and cylinder production began.

2022 accessories for bathroom in our range.

2023 export has reached to 67 countries.

thirty
five
years

When we started this business thirty-five years ago, we knew that we would produce a product for everyday use that most of us would ignore. These metal pieces which cannot be shaped without hands getting dirty would mediate a clean and long but indirect handshake. Even if they were not passed from hand to hand, hands would meet in the same movement through them. And maybe, only after touching it, you would realize that they were produced in pairs.

**An exchange that one would be meaningless without the other.
Our approach to this veiled swap determines the way we handle our work.**

This endeavor is shaped by resilience and elegance, passion and a little panache.

But the genuine reason why we have been so passionately proceeding with this work for so long is the crucial barter in which one cannot produce meaning without the other.

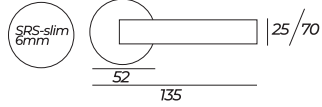

Many years to come...
With change.

A HANDLE ALL YOUR OWN

BY TOBY TURNER <https://www.yankodesign.com/artists/toby-turner/> / 04/28/2017

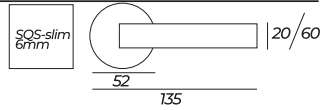

If you've ever searched for a door handle, you know that despite the overwhelmingly wide selection of styles available, it can be extremely difficult to find one that speaks to your style! With the Ada handle, you can put the finishing touch on your door with a look that's truly your own.

It's uniquely framed to accommodate a customized insert made from your favorite fabric, wood, metal, or other material. You can even imprint a logo or name on the insert to define your space as your own! If you're more into minimal, leave it empty and use it as is.

otuzbeş.

Otuzbeş yıl önce bu işe başlarken her günün konusu ama çoğumuzun görmezden geleceği bir ürün üreteceğimizin farkındaydık. Eliniz kirlenmeden şekil veremediğimiz bu metal parçaları; temiz ve uzun lakin dolaylı bir tokalaşmaya aracılık edeceklerdi. Elden ele gezmeseler de aynı devinimde onlarda buluşacaktı. Ve belki, ancak dokunduktan sonra fark edecektiniz bizim çiftler ürettiğimizi.

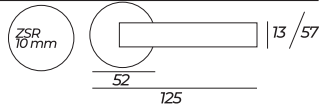

Biri olmadan diğerinin anlamsız kalacağı bir değiş tokuş. Bizim işimize bakımımızı bu saklı takasa yaklaşımımız belirliyor.

İşimiz; direnç ve zerafet, tutku ve biraz gösteriş ile şekilleniyor.

Ama bu işe bunca zamandır tutkuyla devam etmemizin asıl nedeni; Biri olmadan diğerinin anlam üretemediği o mühim mübadeledir.

Nice yıllara, değişimle.

'Biz Sinan'dan Hz.Mevlana'dan referans aldık.
Vav'ı adını söylemeye çekinilen bir sır Elif'i ise
"Aşk da tıpkı Elif gibidir, isminde gizlidir ama okunmaz.
Ölmeyen da besmele sese gelmez.
O her şeyin içindedir ama hiç bir şeyde görünmez" diye
tanımlamış Hz.Mevlana .
